Country of Origin: China

1. Identification of the Substance and Company

Product Name: Phospholipid Tea Drink

Recommended Use: Functional beverage, nutraceutical ingredient

Emergency Telephone: Not applicable

2. Hazards Identification

Classification according to GHS: **Not classified as hazardous**

Label Elements: No hazard pictograms, signal word, or hazard statements required

Other Hazards: None under normal use conditions

3. Composition / Information on Ingredients

Component	Typical Content	CAS Number
Phospholipids	≥ 2%	8002-43-5
Tea Extract	Balance	N/A
Water	Major solvent	7732-18-5
Sweeteners / Acids / Stabilizers	Trace	N/A

Notes: CAS 8002-43-5 refers only to phospholipid component. Entire beverage does **not** have a single CAS number.

4. First Aid Measures

Inhalation: Not applicable; avoid aerosolizing.

Skin Contact: Wash with soap and water if spilled.

Eye Contact: Rinse with clean water; seek medical advice if irritation persists.

Ingestion: Safe in normal dietary quantities; rinse mouth if discomfort occurs.

5. Fire-Fighting Measures

Suitable Extinguishing Media: Water spray, foam, dry chemical, CO₂

Special Hazards: Combustible but not flammable under normal use

Protective Equipment: Standard firefighter gear

6. Accidental Release Measures

Personal Precautions: Avoid prolonged contact with eyes or skin

Environmental Precautions: Prevent large-scale release to drains or water

Jiangsu Khonor Chemicals Co., Limited

Rm 1902 Easey Comm Bldg, 253-261, Hennessy RD Wanchai HK

+86-19851820538

Cleaning Methods: Absorb spill with inert material and dispose according to local regulations

7. Handling and Storage

Handling: Follow good hygiene practices; avoid excessive heat

Storage: Store in cool, dry place, away from direct sunlight

Container: Keep tightly closed

8. Exposure Controls / Personal Protection

Engineering Controls: Standard ventilation sufficient

PPE: Gloves and safety glasses recommended for prolonged handling

Occupational Exposure Limits: Not established

9. Physical and Chemical Properties

Appearance: Clear to light brown liquid

Odor: Mild tea aroma

Solubility: Water-soluble

pH: 5.0–6.5

Viscosity: Medium, easy to mix into beverages

Flash Point: Not applicable

10. Stability and Reactivity

Jiangsu Khonor Chemicals Co., Limited

Rm 1902 Easey Comm Bldg, 253-261, Hennessy RD Wanchai HK
+86-19851820538

Stability: Stable under recommended storage conditions

Conditions to Avoid: Excessive heat, strong oxidizing agents

Hazardous Decomposition: Carbon oxides may form during combustion

11. Toxicological Information

Acute Toxicity: Not toxic

Skin Irritation: May cause mild irritation in sensitive individuals

Eye Irritation: Temporary irritation possible

Chronic Effects: No data indicating chronic toxicity under normal use

12. Ecological Information

Ecotoxicity: Not expected to be harmful

Biodegradability: Biodegradable

Bioaccumulation: Low potential

13. Disposal Considerations

Dispose of contents and container according to local and national regulations

14. Transport Information

UN Number: Not applicable

Proper Shipping Name: Not regulated

Jiangsu Khonor Chemicals Co., Limited

Rm 1902 Easey Comm Bldg, 253-261, Hennessy RD Wanchai HK
+86-19851820538

Transport Hazard Class: Not applicable

Packing Group: Not applicable

Marine Pollutant: No

15. Regulatory Information

Complies with food and nutraceutical regulations

Non-hazardous, safe for handling and consumption

Contains phospholipids (CAS 8002-43-5)

16. Other Information

The information in this MSDS is based on current knowledge and intended for safe handling, storage, and transport.

Does **not** constitute a guarantee of product properties.

COA, TDS, and MSDS are available for free download for customer verification.
