Section 4: First-Aid Measures

Inhalation	If a person breathes in large amounts, move the exposed person to fresh air.
Skin Contact	In case of contact, immediately wash skin with plenty of soap and water for at least 15 minutes.
Eye Contact	In case of eye contact, immediately flush with plenty of water for at least 15 minutes.
Ingestion	If large amounts were swallowed, give water to drink and get medical advice.

Firefighters Special Equipment and Precautions

Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece operated in positive pressure mode.

Section 6: Accidental Release Measures

Wear suitable protective clothing. Carefully sweep up and remove.

Section 7: Handling and Storage

Keep container tightly closed. Suitable for any general chemical storage area. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

Section 8: Exposure Controls/Personal Protection

Exposure Limits	Not available.
Engineering Controls	In general, dilution ventilation is a satisfactory health hazard control for this substance. However, if conditions of use create discomfort to the worker, a local exhaust system should be considered.
Personal Protection	Personal Respirators (NIOSH Approved): For conditions of use where exposure to the substance is apparent, consult an industrial hygienist. For emergencies or instances where the exposure levels are not known, use a full-facepiece positive-pressure, air-supplied respirator. WARNING: Air purifying respirators do not protect workers in oxygen-deficient atmospheres. Skin Protection: Wear protective gloves and clean body-covering clothing. Eye Protection: Use chemical safety goggles and/or full face shield where dusting or splashing of solutions is possible. Maintain eye wash fountain and quick-drench facilities in work area.
